

ŽIVELI ORKESTAR

« Živeli » - Serbian for « cheers » and « to life ».

For more than eighteen years, on stage and at street festivals, Živeli Orkestar have been sharing their 'joie de vivre' with the audience. Inspired by the brass bands from the heart of the Balkans, Živeli Orkestar is a formation that succeeds in conveying the warmth of Slavic folklore while cultivating a free and original music nourished by the passing of time. Živeli Orkestar composes and arranges and their melodies have crossed the borders of France; the warm and wild rhythms of their music have made all kinds of shoes dance.

Friendships made on the road generate great complicity on stage. The kind you cannot invent, but which is infectious. The constantly renewed joy of being a leaven of general jubilation is an organic fuel. And the years have not diminished the orchestra's desire to deliver high quality, powerful but refined music.

DISCOGRAPHY

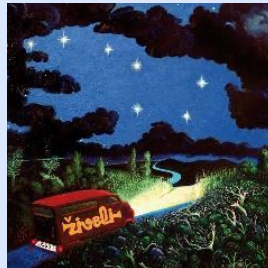

NEW ALBUM : *BALKAN SPRITZ*

Balkan Spritz was released in September 2024, the fruit of a collective composition process. This work testifies to Živeli Orkestar's appetite for cultural mixing. And the strong desire to continue making music that - despite all adversity - is always intended as a journey and a hymn to life. At the intersection between belly dancing and headbanging.
